

# Women and Heart Disease

*Are you aware of your Risks?*

## Learn why Heart Disease is the Number One Enemy of Women.

Come to Highland Hospital on Wednesday, November 8th to learn about the symptoms of heart disease in women and the latest treatment options.

**Joan Pfeiffer, Nurse Practitioner**  
with the Highland Hospital Cardiology Department  
will discuss the statistics related to women and heart disease,  
review the risk factors and explain current treatments.

Wednesday, November 8th 2006

7:00–9:00pm
